

THE Gleichen Call

Thirteenth Year, No. 38

GLEICHEN, ALBERTA, WEDNESDAY, DECEMBER 10, 1919

Provincial Library Jst-1919
Subscription a Year

Agricultural Association Annual Meeting

The annual meeting of the Gleichen District Agricultural Association held in the Town Hall last Thursday afternoon was not attended as well as it should have been considering its importance to our farming community.

The election of officers for the ensuing year was the most important business transacted and resulted as follows:

President John C. Dafoe.
Vice-Pres. J. Prowse
2nd Vice-Pres. S. A. Hall
Secretary F. L. Mallory
Treasurer T. Henderson
Director F. Daw, H. Scott, J. J. Young, T. H. Beach, W. H. Goodwin, W. H. McPherson, George Matthews, W. Walsh, D. McL. O. N. W. McMillan, J. A. McArthur and F. K. McKay.

The secretary's salary was ordered to be paid.

It was decided to distribute membership tickets to the directors that they may solicit members at a fee of \$1 for 1920.

Entertainment and Dance Friday Night

The institute entertainment and dance to be given Friday night in the Opera House by the Gleichen District Agricultural Association will be one of the most pleasant and profitable evenings for those who attend they may expect to spend this winter.

Mr. A. E. Ottewill, director of the Department of Extension of the University of Alberta, has kindly agreed to come all the way from Edmonton to give an illustrated address on "Canada and Its Future". This alone will be worth coming a long way to hear and see. Furthermore, a few other good items are on the program, including piano selection, a quartette, solos, etc., with the Citizens Band to enliven the evening.

For the dance Mrs. Trainor is bringing a four-piece orchestra and promises something extra in the way of music. All will want to hear that "something extra".

A big turnout of farmers is expected as the institute is primarily for their benefit.

Masquerade Ball Friday, Dec 19th

The ladies of the Gleichen U. F. W. A. have most generously offered to supply supper for the G. W. V. A. Masquerade Ball to be given in the Opera House on Friday, Dec. 19th. All know the record of our farmer wives and daughters in serving the very best, and a second invitation will not be necessary to induce every person to be present for this opportunity.

The Calgary War Vets. Band orchestra of four pieces has been engaged for the occasion and Wm. Strack will have a full line of costumes to rent. Thus a good time is assured for every person now is aware our Vets. know how to manage a dance successfully.

Mrs. W. Gordon came down last week from the Sarcee reserve to visit her sister, Miss Mallory, and meet her many former Gleichen friends.

Memorial Meeting on Thursday

The Gleichen and District Memorial Committee through the courtesy of the Great War Veterans is making arrangements to hold a Public Meeting in the G. W. V. A. Hall, Larkin Block, on Thursday evening, December 11th, at 8 o'clock.

The meeting will open with a short program of music and patriotic songs. An illustrated address on the work of the Navy will also be given.

After the program a full statement of the work done by your Committee will be presented. Views of our own proposed memorial will be shown on the screen, and its various parts explained.

Year after year while the war raged in Europe and the destiny of civilization trembled in the balance, nearly 300 of our boys crossed the sea and did their bit to win the most signal victory in the annals of mankind. Fifty of these have not come back—they sleep in "Flanders Fields." We cannot turn to the great tasks of the future until we erected a suitable memorial, which shall honor the memory of our glorious dead, make fitting recognition of all who served and constantly remind us—"Lest we forget" the purchase price of The New Day.

Your committee asks, expects and is confident that it shall receive your fullest co-operation. Come to the G. W. V. A. Hall Thursday evening, December 11th.

T. H. BEACH, President.

R. N. MATHEWSON, Secretary.

Great Interest Taken in the Town and School Elections

Elected—Mayor Tudhope; Councillors H. D. McKay, C. B. Hyndman, L. Michael, W. F. Ferguson, F. K. McKay and R. W. Brown.

Trustees Elected—T. H. Beach and John C. Dafoe.

Thursday was a great day in Gleichen, being the municipal and school election held here in ten years, and while there were no serious issues at stake and no ill will among the candidates expressed, nevertheless there never was more enthusiasm displayed. The Board of Trade started the interest in order to encourage the councillors and certainly carried it through with a vim that made one and all realize that we now have a board that must be considered of some weight and a credit to the entire community.

To select six men for the council out of the ten candidates was something of a conundrum yet a number readily put up their bets to name five successful men and considerable money changed hands during the day.

It is gratifying to know all this year's councillors, who offered their services, were re-elected and of those defeated O. E. McHugh stands out as a man ready to his "bit" and a real sport, who will show up well at the next election, in that he alone appeared on the platform and made a very creditable address.

All four candidates for the School Board showed to good advantage in their addresses, each one proving their interest in the welfare of our school.

Appended is the results of the polls, the first six being the councillors elected and the first two the trustees:

Town Council	
Mayor A. R. Tudhope, elected by Acclamation	
H. D. McKay	115
C. B. Hyndman	105
L. Michael	101
W. F. Ferguson	87
F. K. McKay	83
R. W. Brown	82
O. E. McHugh	54
Wm. McConnell	51
N. P. Purcell	33
A. R. Yates	33
School Trustees	
T. H. Beach	145
John C. Dafoe	127
M. S. Bollinger	21
W. D. Trego	29

Despite the fact that it was a very cold night a good crowd attended the public meeting called by the Board of Trade in the Opera House that night.

Mayor Tudhope called the meet-

Gleichen Livery Totally Destroyed by Fire

This morning Gleichen suffered one of the heaviest losses by fire it has felt for a long time, when the Gleichen Livery and Feed Stable was burned to the ground, owned by Sam Brown.

The loss of building and contents to him may run between \$5,000 and \$6,000, and besides the loss of his account books amounts to considerable, while the insurance he carried was comparatively light.

Dr. A. Hony sustained the next heaviest loss, his auto and surgical instruments being burned, which he estimated worth \$800, but cannot now be replaced at \$1200.

Of thirteen horses in the stable all but two were safely brought out. The two belonged to J. K. Crapo and were tied with chains, which were impossible to untie with the horses pulling on them. This team was valued at about \$500.

The origin of the fire is unknown and was burning fiercely when discovered by a man sleeping in the loft about 1 o'clock this morning, and it was evident at once the building could not be saved.

The alarm brought a big crowd and the firemen found the hydrant at Pinder & Stabback's corner froze, but later got the one north of The Call working. However, water was not required. The building was a wooden one, yet the intense cold and the snow on the roof kept it from being in serious danger, there being very little wind. The chemical engines were used a little to keep the telephone poles and side walk from burning.

The firemen deserve credit for their untiring efforts and every citizen showed a willingness to do their part.

The Hockey Club dance last Friday proved the success it was entitled to and goes to prove the contention that there is an enthusiastic lot of fans about Gleichen who intend to see that our team this season will not lack encouragement. The exact amount realized is yet unknown as some tickets were sold at outside points and the returns have not reached here. However, the amount appears to be quite satisfactory to the Club so far as they can judge. Mrs. Trainor and her orchestra proved exceptionally good and appeared to enjoy themselves as much as any present. The Women's Institute served the luncheon on the stage, which was also much enjoyed. It is hoped the Hockey Club will give another just such dance before long.

therefore, we must be content with stating each one was interesting and conveyed an earnestness that augurs well for the work they hope to accomplish for our town and school the coming year. The speakers were:

Messrs. Tudhope, R. W. Brown, H. Dexter McKay, C. B. Hyndman, L. Michael, F. K. McKay, O. E. McHugh, M. S. Bollinger, John C. Dafoe, W. D. Trego and T. H. Beach.

All the other candidates were called upon but had left the hall.

In bringing the meeting to a close the chairman called for three cheers for all the candidates which were given most heartily, as well as more cheers for the Band.

Scott Bros. are arranging a live hockey match for New Year's.

Timely Words of Warning and Advice

The addresses which Hon. T. A. Cresser, former minister of agriculture and progressive leader of the new farmer's party, recently delivered at a number of places in the West have a greater value and importance at this particular time than usually attaches to speeches from the political platform, and they are fully deserving of the attention which has been devoted to them, not only by the press, but the public generally.

The avowed object of this series of addresses by Mr. Cresser was to outline to the people of the cities of the West the main principles of the New National Policy promulgated by the Canadian Council of Agriculture, the policies to support of which the farmers are making sacrifices, and to foreign party affiliations and to invite the support of all classes, in city as well as country, who believe in the principles and policies enunciated in that Platform.

It is altogether probable that Mr. Cresser's series of meetings was also prompted by the fact that in Alberta, by resolution of the Canadian Council of Agriculture, the U.F.A. leader in that province took the ground that the new "class" political movement was a distinctly "class" movement, and that it advocated other policies than those of organizing along similar "class" lines. This is in direct opposition to the policy of the Canadian Council of Agriculture, and the leaders of the farmer's movement in Manitoba, B.C. and the U.F.A. leader in that province took the ground that the new "class" political movement was a distinctly "class" movement, and that it advocated other policies than those of organizing along similar "class" lines.

It is altogether probable that Mr. Cresser's series of meetings was also prompted by the fact that in Alberta, by resolution of the Canadian Council of Agriculture, the U.F.A. leader in that province took the ground that the new "class" political movement was a distinctly "class" movement, and that it advocated other policies than those of organizing along similar "class" lines.

It is altogether probable that Mr. Cresser's series of meetings was also prompted by the fact that in Alberta, by resolution of the Canadian Council of Agriculture, the U.F.A. leader in that province took the ground that the new "class" political movement was a distinctly "class" movement, and that it advocated other policies than those of organizing along similar "class" lines.

It is altogether probable that Mr. Cresser's series of meetings was also prompted by the fact that in Alberta, by resolution of the Canadian Council of Agriculture, the U.F.A. leader in that province took the ground that the new "class" political movement was a distinctly "class" movement, and that it advocated other policies than those of organizing along similar "class" lines.

people to be reasonable, and to be guided by reason and not impulse. The danger against which Mr. Cresser warns people to be on guard probably has found its greatest and most tragic expression in the ranks of organized labor, where large groups of men showed a will- ingness to follow their former leaders, and their great international union, and to follow ultra-socialistic, even anarchistic, leaders and their will-to-kill nostrum of the "Red Legion." Here in the West organized labor came very close to destroying itself. It largely alienated the support of all reasonable men, women, and has created a division in its own ranks which it will take a long time to overcome.

If Canada is to grow great and prosper there must be neither "class" nor "sectional" groups in this Dominion. "Classes" and "groups" as such may very properly carry on educational propaganda with a view to convincing the people as a whole that they are right, and when they succeed in so convincing them their views will find correct expression in the laws of the Dominion. But attempt to pass "class" legislation can only end in disaster, hinder the development and prosperity of the Dominion, and lead to turmoil, trouble and possibly open strife.

The cry of need of Canada is greater unity among all classes, races and religions, and a national Canadian nationalism spirit. Patriotic Canadians everywhere should set aside all personal and sectional differences, and stand together in support of the principles and policies enunciated in that Platform.

B.C. Fruit for the West. Manitoba, Saskatchewan and Alberta farmers' organizations have been asked to supply apples, and for the first time in the history of these organizations they have all purchased British Columbia fruit.

Too many men who have good ideas are unable to make good. A bill poster knows his place, and there he sticks. The Miller-Wood Powers will purge Canada of parasites and intruders of various kinds, and will make it a more healthy and prosperous country.

Minna's Delivered from Her Sufferings. Letters are delivered from the hands of the Tonga group, and the Pacific, by syndicates freed from their sufferings.

Heals Inflamed Nostrils, Stops Catarrh Discharge Cures Colds Quickly. Poor remedies have given Catarrh the reputation of being incurable. But it is curable, easily and quickly, the right method is employed. Suffering a powerful or persistent nose won't cure Catarrh, neither will salves, ointments, or other medicines cure. These treatments fail because they only affect local parts, they do not remove the cause, which is the established seat in the lungs, bronchial tubes, and nasal cavity, which is the cause of the trouble. The right method is to reach these remote parts, and Catarrh will be cured. It is a disease which enters the body through the nose and throat, and it is a disease which enters the body through the nose and throat, and it is a disease which enters the body through the nose and throat.

How U-Bots Were Trapped. One of the new devices adopted by the British for the co-ordination of the efforts of travelers and submarines has just been divulged. A traveler who would cross a frontier by air and maintain communication with it by telephone. When the traveler sighted a German U-boat the British submarine would slip its cable and attach the German boat to the telephone line, and the German boat would be captured or destroyed.

Many a man, like the moon, shines with borrowed light. W. N. U. 1283

376 Heroes Receive Victoria Cross
A British War Office report shows that war honours have been conferred on 376 heroes, exclusive of the air force, number nearly a quarter of a million, including the Victoria Cross, 376 Companions of St. Michael and St. George, 202 Distinguished Service Order, 8,683 Order of the British Empire, military division, 3,019 Military Cross, 36,707, and Military Medal, 114,000.

GET SLOAN'S FOR YOUR PAIN RELIEF

You don't have to rub it in to get quick, comforting relief

Once you've tried it on that aching, smart, aching pain, your back, your neck, your head, your stomach, your chest, your limbs, you'll find Sloan's Liniment is just what you need. It's the only liniment that doesn't burn, sting, or irritate the skin. It's the only liniment that gives you quick, comforting relief.

It takes a hundred cents to make a dollar, but it takes more than a dollar's worth of sense to make a man.

Consistency doesn't make cowards of literary romancers.

Has a Corn Any Roots?

Yes, and branches and stems as well. Cut it out at once, and apply Pains Expeller. It's the only medicine that cures corns, blisters, and all other skin troubles. It's the only medicine that gives you quick, comforting relief.

Facts About Our Country

A Population Averaging Less Than One Man to a Square Mile. The area of the Canada is 3,229,665 square miles. Population, 1,500,000. Compared with the United States, Canada is greater in size than the United States, including Alaska, but has a population less than that in the three cities of New York, Chicago and Philadelphia.

One half of Canadian live in farms. The proportion of the population engaged in agriculture and stock raising is the out-put of a population averaging less than one man to the square mile. The total area of land fit for tillage is estimated at 302,200,000 acres. Of the 179,000,000 acres it is farm land. The 45,000,000 acres comprised in Manitoba, Saskatchewan and Alberta, 20,000,000 under forest and 25,000,000 under pasture. There is room for settlers on 128,000,000 acres of land fit for tillage. 100,000 still open for homestead entry.

A famous woman novelist was once asked why she had not married. "I have three things about me," she said, "which render it almost impossible for me to marry. I am too old, too ugly, and too poor." "I don't want any more of them."

"What do you mean?" her friend asked. "I mean," she replied, "I've got a dog that grows all the morning, a cat that swears all the afternoon, and a rat that stays out all night!"

There are twenty-eight pounds of fat in the body of an average grown-up person.

Banking Confidence in Alberta's Future

Thirty three years ago we commenced business in Alberta, winning the distinction of being the first bank to establish in this Province. It was at once an expression of our confidence in the future of Alberta, a confidence that has been borne out by our rapidly-expanding system in an effort to extend the fullest possible measure of banking accommodation.

IN MEMORIAM

The Death of Lionel P. Brereton

(Unavoidably omitted from our last issue.)

It was with deep regret that we had to record last week the death, late on Sunday night, of Lionel, the younger son of Mr. and Mrs. D. L. Brereton, two of our respected citizens.

It came as a shock to everyone, and not least to his own family, as there had been no indication until the last few hours of the serious nature of his brief illness.

Lionel was a boy of more than ordinary promise, and his many good qualities, combined with brightness and kindness of manner, made for him many friends, by whom he will for long be greatly missed.

His earthly remains were laid to rest on Wednesday afternoon, the 28th, in Gleichen cemetery, after an impressive service in the Union Church, which had been generously offered for the occasion in order to accommodate the large numbers who wished to be present. Over a hundred of his schoolmates, with whom he was a favorite, attended in a body, and six of his companions from the Sunday school acted as pall-bearers. The unusually large number of floral tributes told more eloquently than words the widespread sympathy that prevailed everywhere towards those upon whom the burden of sorrow falls so heavily.

The service was conducted by the Rev. Canon Stocken, and the Rev. R. N. Matheson gave a very appropriate address. The choir led the singing, and Mr. McMullen rendered a beautiful sacred song entitled "God shall wipe away all tears."

We extend to the bereaved friends our most sincere sympathy.

The floral offerings were most beautiful, among which the following were noted:

Pillow, the family
Wreath, B Payne
Cross, P Willett
Spray, Mr and Mrs Bremner
Spray Mr and Mrs Trego and family
Spray Mr and Mrs G Brown
Spray, Mr and Mrs Yates
Wreath, Mr and Mrs Hardwick

BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY BECAUSE:

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

ALLAN CAMERON, Gen. Supt. of Lands
Canadian Pacific Railway, Dept. of Natural Resources, 928 1st St. E.
CALGARY, ALBERTA

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$80 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements

(6% interest); no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied

and no water rental for first year. Contract can be paid off before maturity if desired.

will soon be ready for business.
Messrs. De Witt & Messenger are the
proprietors.

W. Bertrand, one of Queenstown's
oldest settlers, died very suddenly
in Calgary. Mr. Bertrand left his home
for Calgary apparently in good
health the day before his death.

The Queenstown annual turkey
shoot was held at the hall, Friday
afternoon. Nearly a hundred tur-
keys were disposed of, and it was
some sport for the crowd. It looks
as though everybody here will have a
turkey for Christmas. There was a
well-attended dance in the evening.

The annual meeting of the Queens-
town U.P.A. will be held in the hall,
Wednesday, December 31. The meet-
ing will be in the afternoon, while the
evening—New Year's Eve—will be
devoted to a program and dance.
Ladies are asked to bring something
for supper.

The Christmas tree, event takes
place in the hall, Tuesday evening,
before Christmas, December 23, when
the new bridge spanning the river
part. A list for donations for the
purpose of buying fruits, candies, etc.
for the children is now at Ainsard &
Stewart's store. If you want to
donate ask for the list when you go
there.

Economy of Ford Service

WEAR is unavoidable even in the
best car, but certain parts wear
out more quickly than others. There is
no need of scrapping your car because
the piston rings have seen their day,
because the platinum point of the
vibrators are worn out. Probably the
rest of the car is as good as new.

Medical men agree that the human
body is renewed, cell by cell, every
seven years. You can do the same
with your Ford Car and prolong its life
at minimum cost by replacing worn
parts from time to time.

Ford service has been the means of doubling
the lives of hundreds of Ford Cars, and cut-
ting down the cost of motoring. The fact that
a Ford Touring Car, which costs \$650, f. o. b.
Ford, Ont., can be purchased part cash
separately for \$917 is ample proof of the
economy of driving a Ford Car.

It will pay you to have your car overhauled during
the winter months. 700 Canadian Dealers and over
2,000 Service Garages supply genuine Ford parts and
prompt repair service.

When buying, choose a Ford, and take advan-
tage of the economy of Ford service.

J. H. WALLS, DEALER, GLEICHEN

The ground for the new park on
the west shore of Lake McGregor
has now been selected. It consists of
a tract of 200 acres directly south
of the dam. As the irrigation ditch
runs on the west and south side of
the tract it forms a kind of penin-
sula and makes a fine spot for a park.
On the north side of the dam the
municipality of Marquis has ac-
quired the area where the main
buildings will be erected. Just watch
as grow.

In schools where botany or allied
subjects are studied it is usually the
custom to study wild plants. Such
plants possess striking flowers with
clearly defined parts and are well
suited to a botanical examination.
Plants like the oats, on the other
hand, are seldom studied either from
a botanical or biological standpoint.
One of the purposes of the new pam-
phlet, "A Guide in the Study and Im-
provement of Plants and Seeds,"
prepared by the Canadian Seed
Growers' Association, and obtainable
free upon application to the Publi-
cations Branch, Department of Agri-
culture, Ottawa, is to encourage a
greater interest in this important
plant. The fact that different oat
plants taken from a field may differ
very considerably in practical value,
and may mark the starting point of
new and superior races or "strains,"
provides an attractive opportunity to
engage in a most interesting and
promising line of investigation. Such
a study in rural schools, moreover,
should help to arouse a new interest
in farming and farm life by demon-
strating, among other things, that
more profitable varieties are often
obtainable right at one's doors.

Just about the time Canadians are
ready to think the English people
are beginning to know something
about Canada we read something
like the appended, which knocks the
wind completely out of us again.

The London Evening Times says
a scheme for the reorganization of the
Canadian colony at Denmark, which
reunites a large colony on Van-
couver Island, has been drawn up and
officially given over to the British
Government. The scheme would
handle the whole of the property.
A meeting for the purpose of the
same will be held on January 15.

The Times adds: "To what extent
the company will be able to pay in-
terest on the debentures will depend
upon the ability to sell the coal it
can produce. The company has coal,
but the difficulty is to sell it in com-
petition with the coal on the Pacific
will no doubt expand, we believe."
"Ability to sell coal." Just think
of the Times talking that way when
throughout all Canada every man is
trying his best to get a chance to buy
coal. Who was it that the London
Times was "some" paper?

The Road—As It Is and As It Seems

In Overland 4 on Three-Point Suspension Springs

OVERLAND 4 does not change the road, but it *will* change the manner in which you can ride on it. The comfort achievement, the greatest since the introduction of pneumatic tires, is made possible by the wonderful cushioning ability of Three-Point Suspension Springs—exclusive with Overland.

The Diagonal attachment of the Three-Point Suspension Springs at the ends of a 130-inch frame gives the road steadiness achieved by a car of long wheelbase.

Yet Overland 4 retains all the advantages—lightness, economy, and ease of handling, of 100-inch wheelbase.

Overland 4's equipment is no less admirable than its construction. The list is complete from Auto-Lite Staring and Lighting to Detachable Rims.

Come in and see this remarkable car. Ask for Buckle, Overland 4 Touring, \$1195; Roadster, \$1195; Coupe, \$1245; Sedan, \$1595. Prices f. o. b. Toronto. War tax included, subject to change without notice.

Cleanses the Blood, Builds Up Strength, Improves Complexion

As a result of debility, sickness or improper diet, the blood often becomes weak and unable to free itself of poisons.

Morbid, unhealthy matter accumulates and breaks out in sores that discharge and will not heal.

Washes, salves and ointments are useless because they have no action on the poisoned blood.

But Dr. Hamilton's Pills cleanse and enrich the diseased blood, drive out impurities and fill it with nutrient and strong building material.

Ulcers, boils and sores heal up. Likewise all weakness due to impoverished blood is cured by these famous pills, and anaemia, erysipelas and rheumatism go before it as chaff before fire.

The skin grows smooth, complexion clear, health, vigor and strength are evident on all sides.

A blood remedy for blood diseases, the formula of a famous physician—no improvement can be made on Dr. Hamilton's Pills.

Their use extends to the people of many nations and thousands have proved that they do cure when all else fails.

No matter what your ailment may be, if it has its origin in the blood it is curable with Dr. Hamilton's Pills Sold everywhere, 25c a box.

THE COW PUNCHER —BY— ROBERT J. C. STEAD

Toronto. Printed By Special
Arrangement.

(Continued.)

He was turning this very matter over in his mind, and wondering what the end would be, when a knock came at the door.

"Come," he said, switching on the light. "Oh, it's you, Bert. I am honored. Sit down."

The girl threw her coat over a chair and sank into another. Without speaking she extended her shapeless feet to the fire, but when its soothing warmth had comforted her limbs she looked up and said:

"Adam sure put it over on us, didn't he?"

"Still nursing that grievance over your sex," laughed Dave. "I thought you would outgrow it."

"I don't blame him," continued the girl, ignoring his interruption. "I am just getting back from forty-seven teas. Gable, gable, gable. I don't blame him. We deserve it."

"Then you have had nothing to eat?"

"Almost. Only insignificant indigestibles."

Dave pressed a button, and a Chinese boy (all male Chinese are boys) entered, bowing in that deference which is so potent to separate the white man from his silver.

The white man glories in being saluted, especially by an Oriental, who can grovel with a touch of art. And the Oriental has not been slow to capitalize his master's vanity.

"Bring something to eat. Go out for it, and be quick. For two."

"Ice cream? Toast? Tea?"

"Not. Something to eat! Soup, fried chicken, hot vegetables, dessert, everything."

"You've had your dinner, surely?" asked Bert.

"Such a dinner as a man eats alone," he answered. "Now for something real. You stick to the paper like the ink, don't you, Bert?"

A Nervous Wreck

BY DR. D. L. GRANTIER.

How many business men feel fagged out, nervous, with a "soggy brain"—worn out completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a common cold to grippe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anuric" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anuric" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

"Can't leave it. I hate it—and I love it. It's my poison and my medicine. Most of all I hate the society twaddle. And, of course, that's what I have to do."

"And you write it up so gloriously," said Dave. "Enthusiasm in every line of it."

"You read it, then? I thought all men looked on the society page with contempt."

"They do. But they look on it just the same—long enough to see whether their names appear among those present."

"Or whose husband is out of town?"

"You're growing more cynical all the time."

"How can I help it, when I print both sides of the game? If I printed half I know I'd have every lawyer in this city busy tomorrow—except those who skipped out over night."

"You know it," Dave agreed. "But here is dinner." The boy wheeled a table between them, and there was a savoury smell of hot food.

"A recherche repast," screamed Bert, half through her soup, with a great burst of merriment. "Oh, I must tell you. You remember the Metfords? You used to shovel coal for them. I know you're no snob, or I wouldn't put it so brutally. Of course, they're rich. Sold the old stable-yard for a quarter of a million, or thereabouts, and are now living in style. Some style! When they have guests, as they nearly always have—there'll be parasites as long as there's easy money—old man Metford eats breakfast in evening dress. And she orders the chiffonier to take the guests down to the depot in their Packer. But one thing has gone to her heart. She didn't realize in time that it wasn't good form to be profane. Now that she knows three is the limit she has sent the other six to the country. But that isn't what started on. She called up this morning and gave me hell because I said yesterday that she had served a recherche repast at some function they pulled off the other night. 'See here, young woman,' she says, 'I want you to understand there's none of that recherche stuff on my table. Nothing short of champagne, every drop of it.' 'Why didn't you print a retraction?'"

"I don't know."

"I do. It's because, Miss Roberta, beneath your cynicism and your assumption of masculinity you are as sympathetic as a young mother. It would be mean to put over anything like that, and you just can't do it."

"Nonsense. You see what I print at times—"

"Bert," he said suddenly, "why don't you get married?"

"Who, me?" Then she laughed. "I guess I'm too sympathetic. It would be mean to put over anything like that on a man, and a girl wouldn't have me."

"Well, then, why don't you buy some real estate?" he continued, jocularly. "Every man should have some dissipation—something to make him forget his other troubles."

"A little late in the meal for that word, isn't it?"

He stared a moment, and then started to his feet. "I have your mind. What will you drink?"

"What you drink."

"But I don't drink coffee."

"So do I. . . . I may be manly, Dave, but I don't think I'm a fool. I can understand a man drinking, but not a woman. It's too dangerous. . . . But I'll smoke a cigarette."

"Now, as for real estate. The fact is, I have invested."

A look came into his face which she did not understand. "With whom?" he demanded, almost peremptorily.

"With Concord and Elden," she answered, and the roguishness of her voice suggested that her despised femininity lay not far from the surface. "Were you about to be jealous?"

"Why didn't you come to me?" She realized that he was in deep earnest. "I did," she answered, candidly. "At least, I asked for you, but you were out of town, so Concord took me in hand, and I followed his advice."

"Do you trust Concord?" he demanded, almost fiercely.

Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a dose, 25c a box at all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

"Well, he's good enough to be your partner, isn't he?"

The trust hurt more than she knew. He had his poise again.

"Real estate is the only subject I would trust him on," she continued. "I must say, Dave, that for a shrewd business man you are awfully dense about Concord."

He remained silent for a few moments. He decided not to follow her lead. He knew that if she had anything explicit to say about Concord she would say it when she felt the time to be opportune, and not until then. He returned to the matter of her speculation.

"How much did you invest?"

"Not much. Just what I had."

"You mean all your savings?"

"Why not? It's all right, isn't it?"

He had risen and was standing again by the window. The long line of lights stretched out until they became mere diamond points on the velvet bosom of the night. Motor cars sped noiselessly to and fro, save where, at the corner below, chauffeurs exercised their sirens. But neither the lights, nor the night, nor the movement and noises of the street had any part in the young man's consciousness.

"It's all right, isn't it?" she repeated. "I'm afraid it isn't," he said at length in a restrained voice. "I'm afraid it isn't."

"What do you mean?" she demanded. There was an accusation in her eyes that was hard to face.

"Bert," he continued, "did it ever occur to you that this thing must have an end—that we can't go on forever lifting ourselves by our own bootstraps? We have built a city here, a great and beautiful city, almost as a wizard might build it by magic over night. There was room for it here, there was occasion, there was justification. But there was neither occasion nor justification for turning miles and miles of prairie land into city lots—lots which in the nature of things cannot possibly, in your time or mine, be required for city purposes. These lots should be producing wheat, oats, potatoes, cows, butter—that is what we must build our city on. We have been considering the effect rather than the cause. The cause is the country, the neglected country, and until it overtakes the city we must stand still, if we do not go back. Our prosperity has been built on borrowed money, and we have forgotten that borrowed money must, sometime, be repaid. Meanwhile, in the heart of the greatest agricultural country in the world, we bring our potatoes across the American continent and our butter across the Pacific Ocean."

He had spoken with effort, as one who makes a bitter confession, yet tries to state the case fairly without excuses and without violence.

"You mean that the boom is about to burst?" she said.

"Not exactly burst. It will not be so sudden as that. It will just ooze away, like a toy balloon pricked with a pin."

There was silence for some minutes. When she spoke at length it was with a tinge of bitterness.

"The firm is unloading?"

"So you are. I beg you, Bert, to believe that if I had known your intention I would have tried to dissuade you. I would have advised you to keep your money in the bank until after the air cleared. Three per cent. is small, but it is better than tax bills on unsalable property."

"Why me particularly? I am only one of the great public. Why don't you give your conclusions to the world? When you were convinced that a period of inflation was about to occur you did not hesitate to call so. If I remember you used the Call for that purpose. Now that you see the reaction setting in, doesn't honesty suggest what your course should be?"

She had risen, and she, too, looked with unseeing eyes upon the busy street. There was reproach in her

voice, Dave thought, rather than bitterness.

He spread his hands. "What's the use? The harm is done. To predict a collapse would be to precipitate a panic. It is as though we were passengers on a boat at sea. You and I know the boat is sinking, but the other passengers don't. They are making merry with champagne and motor cars—if you can accept that figure—and revelry and easy money. Why spoil their remaining few hours by telling them they are headed for the bottom? . . . Besides, they are not deserving of sympathy, after all. They are in the game because they wanted to make money without earning it. Gamblers, every one of them. And the man or woman who expects to get wealth without giving value shouldn't whine if, by a turn of fate, he gives value without getting wealth."

(To Be Continued.)

Not Encouraging Male Immigration

Salvation Army Officer Declares Organization Awaits Soldier Re-establishment

Col. Charles A. Taylor, of the Salvation Army immigration department, in an interview at Toronto, said: "It is not for us to encourage any male immigration until all the soldiers are re-established." Canada's first business, he added, was to look after her returned men.

With reference to the Salvation Army's immigration policy, Col. Taylor said: "It will be our policy to encourage men who are agricultural laborers or those who are prepared to do work on the farms. But it will depend entirely upon the demand that there is for such workers. The wives of the immigrants will be sent for after the husbands have been established. We shall endeavor to send to Canada the best class of people."

Col. Taylor said he was glad that the Canadian government had authorized the committee of the Council of Women, but he did not know the relation which the Salvation Army would have to it. During the war the Salvation Army had kept its immigration machinery intact. The Army was willing to co-operate, provided that it was permitted to work in its own way.

An Automatic Pilot

Insulated Wire Acts as Guide for Vessels Provided With Proper Electrical Apparatus

Accurate, automatic guidance of vessels through any and all weather conditions into the safe anchorage of a harbor would unquestionably be an improvement on present navigation, and the change is promised by an invention described the other day by the president of the British Association. Germany is credited with the initial work, designed to provide a means for guiding her submarines through mine fields, and British inventors are said to have made it practicable for surface vessels in times of peace. To put it briefly, an insulated wire laid on the bottom of the sea acts as a guide for vessels provided with proper electrical apparatus, so that the path indicated by the wire can be followed in the dark, and the vessel come into port almost as if she traveled by a great and beautiful city, almost as a wizard might build it by magic over night. There was room for it here, there was occasion, there was justification. But there was neither occasion nor justification for turning miles and miles of prairie land into city lots—lots which in the nature of things cannot possibly, in your time or mine, be required for city purposes. These lots should be producing wheat, oats, potatoes, cows, butter—that is what we must build our city on. We have been considering the effect rather than the cause. The cause is the country, the neglected country, and until it overtakes the city we must stand still, if we do not go back. Our prosperity has been built on borrowed money, and we have forgotten that borrowed money must, sometime, be repaid. Meanwhile, in the heart of the greatest agricultural country in the world, we bring our potatoes across the American continent and our butter across the Pacific Ocean."

He had spoken with effort, as one who makes a bitter confession, yet tries to state the case fairly without excuses and without violence.

"You mean that the boom is about to burst?" she said.

"Not exactly burst. It will not be so sudden as that. It will just ooze away, like a toy balloon pricked with a pin."

There was silence for some minutes. When she spoke at length it was with a tinge of bitterness.

"The firm is unloading?"

"So you are. I beg you, Bert, to believe that if I had known your intention I would have tried to dissuade you. I would have advised you to keep your money in the bank until after the air cleared. Three per cent. is small, but it is better than tax bills on unsalable property."

"Why me particularly? I am only one of the great public. Why don't you give your conclusions to the world? Experiences of an Irrigation Farmer

After Several Hard Years, the Tide
Begins to Turn

One of the most enthusiastic farmers in Alberta is J. A. Cammaert, whose place is located some eight miles east of Strathmore. Mr. Cammaert is a native of Belgium. About ten years ago he settled on the land which he still occupies. For some years he had hard sledding. In 1910 he had some wheat under irrigation and it was the only good crop on his place. The acreage under irrigation, however, was only small, and, like many a farmer in the early years of his experience, he lost all the available money on hand. The crop of 1911 was put in on credit, but frost came along and again the season's operations netted a loss. The following two years were equally difficult, but in 1914 the tide began to turn. Some crop soyn that year on irrigated land turned out well. By 1918 things were going pretty well and he had 7,500 bushels of grain, all grown under irrigation. This year the farm has produced splendid crops of wheat, oats, barley and alfalfa.

Mr. Cammaert attributes his steadily increasing prosperity to irrigation. He is one of the farmers who has constantly pinned his faith in that method of farming. Even when the tide of public opinion in his locality was running strong in the other direction he kept right on believing in irrigation and extending his system on his land.

This year he has threshed as high as 61 bushels per acre of wheat from his seed plot. He also threshed 61½ bushels of barley and 90 bushels of oats per acre. Alfalfa ran four tons to the acre from two cuttings. Naturally Mr. Cammaert believes that his faith in irrigation has been completely vindicated.

Prices in Germany

The representative of a foreign woollen firm travelling in Germany writes that the demand for cloth is enormous. The market has fallen so low that it means the Germans must pay nearly four times as much for their foreign goods, but if the money trouble can be adjusted, huge quantities of material can be sold in Germany. The French supplied the first demand at greatly inflated prices, but that era is passed, and although the people are wearing paper clothes or anything they can get, they will not buy except at reasonable prices.

TONIGHT!

Take "Cascarets" if sick,
Bilious, Constipated.

Enjoy life! Straighten up! Your system is filled with liver and bowel poison which keeps your skin sallow, your stomach upset, your head dull and aching. Your meals are turning into poison and you can not feel right. Don't stay bilious or constipated. Feel splendid always by taking Cascarets occasionally. They act without griping or inconvenience. They never sicken you like Calomel, Salts, Oil or nasty, harsh pills. They cost so little, too—Cascarets work while you sleep.

Prize Shorthorn Cattle Change Hands

Sale Held by the Western Canada
Shorthorn Breeders' Club
at Brandon

One hundred and two Shorthorn cattle brought a total of \$51,985 at the second annual sale held by the Western Canada Shorthorn Breeders' Club at Brandon, Manitoba, recently. The average price for females was about \$487 and \$810 for bulls. The highest priced animal was Lavender 47th, sold by John Barron, Carberry, Manitoba, to C. G. Beeching, of De Winton, Alberta, the price being \$5,000. A few hours after Mr. Beeching had purchased this heifer he was offered \$8,000 for the same animal—an increase of \$3,000 on his bargain. Mr. Beeching, however, declined this offer, stating that he did not want to sell but intended showing the heifer at the Chicago Livestock show. Star of Hope, judged grand champion at Brandon and Saskatoon summer fairs, was sold for \$2,500 to M. L. Nelson, of Midale, Sask.

There was a great rivalry between Canadian and American buyers for the best animals, Canadian stockbreeders wishing to retain such prize stock for the improvement of their own herds.

Protection By Flood Lighting

Unexpected Result of the London
Railway Strike

One unexpected result of the London railway strike was to introduce flood lighting to the British public in two forms. At the Hyde Park milk depot searchlights were employed to assist in transport and in loading and unloading. The ordinary army projector is rather a crude device for this purpose, although it served well enough in an emergency. The other application was of a more orthodox character. The roadway alongside Lot's Road power station, from which London's underground railways are worked, was flooded with light from projectors which enabled the sentries to scrutinize everybody and everything that came near the building. Whether any trouble was contemplated by the strikers or not, the flood lighting was an effective discouragement to any tendency in that direction.

Worth More Than When Purchased

Discussing the disposal of the old Winnipeg exhibition buildings, a civic committee was told by the building inspector that the lumber would now be worth more than was originally paid for the material. Alderman H. Gray said that lumber bought 32 years ago is worth more today than it was actually sold for then, and instanced a local transaction to prove it.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Canada's Army Abroad

To Shut Up Shop Shortly After the
New Year

The department of the overseas militia forces in London, which had charge of the affairs of Canada's army abroad, will shut up shop shortly after the new year, Sir Edward Kemp has stated. The minister of the overseas forces said that at the present time the department was only retaining sufficient staff to complete the records and wind up the business. Only about a thousand Canadian soldiers now remain in England, some undergoing treatment in hospitals, some waiting until their dependents are able to cross the sea. The fighting Canadian corps and almost all the organizations which helped to maintain its efficiency, has been disbanded.

Worry is the undesirable thoughts a fellow can't help thinking.

When a man has no more money to burn his old flames soon desert him.

A Constipation Cure

A druggist says: "For nearly thirty years I have recommended the Extract of Roots, known as Mother Selig's Catnap Syrup, for the radical cure of constipation and indigestion. It is an old reliable remedy that never fails to do the work." 30 drops thrice daily. Get the Genuine, at druggists.

Four Thousand Canadians Will Have Decoration

Special Honor to be Given Men Who
Were Mentioned in
Despatches

In connection with the despatch from London that it was contemplated that those who were mentioned in despatches during the war should have permission to wear a small oak leaf on the ribbon of the victory medal, it is estimated that four thousand Canadians would be entitled to this extra decoration. It has been suggested that the Maple Leaf would be more appropriate for Canadians than the Oak Leaf and it is probable that some effort would be made to have the Maple Leaf authorized for Canadian use.

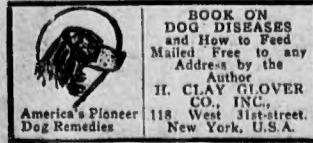

Heligoland Fortress

FOR GREATER HORSE EFFICIENCY GIVE SPOHN'S DISTEMPER COMPOUND

The rigor and changes of winter weather reduce your horse's vitality. In such condition, he is susceptible to contagious disease. His efficiency is lowered if his system is not able to withstand exposure to disease. SPOHN'S will keep your horse in condition and free from disease. Prevents and relieves DISTEMPER, INFLUENZA, PINK EYE, COUGHS AND COLDS. Buy from your druggist.

Alien Population in Holland

According to the Central Bureau for Statistics, the number of aliens in Holland has steadily increased since June 20. On that date the number of aliens in the country totalled 117,887; on August 20 this figure had risen to 126,794, and on September 20 to 133,536. Of these, Belgians were in the majority, namely 48,124, then came Germans, 45,795, French 9,111, and British 3,198.

Ohio has just lost her champion lazy man. He died of starvation because eating made his jaws tired.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain. He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

If manners make the man, that explains the undone condition of some men.

Imperial Russian Pearls

Withdrawn from Sale at London Auction When Small Bid Was Offered

As only £67,000 was offered when a pearl necklace, said to have belonged to the mother of Peter the Great, was offered at auction in London, the trinket was withdrawn from the sale. The reserved price placed on the necklace by the auctioneer was £350,000.

The pearls making up the necklace together weigh 4,000 grains and number 128, the largest being 28 grains. It is said that it will be broken up and the jewels offered separately unless a private purchaser willing to pay the desired sum is found. The necklace was brought to England recently under mysterious circumstances, having been wound around the body of the carrier.

Alberta Beef for Belgium

Large Contracts Have Been Placed By the Belgian Government

The fact that the war-stricken countries of Europe are looking more and more to Western Canada for the replenishment of their depleted stocks of foodstuffs and livestock is evidenced by the numerous large contracts that have been placed by the Belgian government with this province. In addition to large shipments of butter from this province—600,000 56-lb. boxes of this product were shipped last month—exports of cattle from the Edmonton district have been of great proportion. During the past week 28 carloads of beef cattle, assembled from the farming country east of Edmonton, have been shipped to Belgium. This consignment is one of several that have been recently made, and, according to information received, it will be followed by others at early dates. The cattle for exportation were of the good beef variety.

Most of our duties are too plain to be attractive.

Do It Now.—Disorders of the digestive apparatus should be dealt with at once before complications arise that may be difficult to cope with. The surest remedy to this end and one that is within reach of all, is Parmed's Vegetable Pills, the best laxative and sedative on the market. Do not delay, but try now. One trial will convince anyone that they are the best stomach regulator that can be got.

"My poor man," said the sympathetic prison visitor, "do let me send you some cake?"

"Thank you mum, that would suit me fine."

"What kind would you prefer?"

"Any kind, mum," said the prisoner, lowering his voice to a whisper, "just so it's got a file in it."

THE TREASURE OF GOOD HEALTH

Easily Maintained Through the Use of Dr. Williams' Pink Pills

There is not a nook or corner in Canada, in the cities, the towns, the villages, on the farms and in the mines and lumber camps, where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other they have brought back to bread-winners, their wives and families the splendid treasure of new health and strength.

You have only to ask your neighbors, and they can tell you of some rheumatic or nerve-shattered man, some suffering woman, ailing youth or anaemic girl who owes present health and strength to Dr. Williams' Pink Pills. For more than a quarter of a century these pills have been known not only in Canada, but throughout all the world, as a reliable tonic, blood-making medicine.

The wonderful success of Dr. Williams' Pink Pills is due to the fact that they go right to the root of the disease in the blood, and by making the vital fluid rich and red strengthen every organ and every nerve, thus driving out disease and pain, and making weak, despondent, peevish, bright, active and strong. Mr. W. T. Johnson, one of the best known and most highly esteemed men in Lunenburg County, N.S., says: "I am a Provincial Land Surveyor, and I am exposed for the greater part of the year to very hard work travelling through the forests by day and camping out by night, and I find the only thing that will keep me up to the mark is Dr. Williams' Pink Pills. When I leave home for a trip in the woods I am as interested in having my supply of pills as provisions, and on such occasions, I take them regularly. The result is I am always fit. I never take cold, and can digest all kinds of food such as we have to put up with in the woods. Having proved the value of Dr. Williams' Pink Pills, as a tonic and health builder, I am never without them, and I lose no opportunity in recommending them to weak people whom I meet."

Dr. Williams' Pink Pills should be kept in every home, and their occasional use will keep the blood pure and ward off illness. You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Indians Get \$500,000

Indians in The Pas district have been paid more than \$500,000 for ratskins, receiving \$2 per skin this year. Hon. Edward Brown, Manitoba provincial treasurer, reports that business there has been exceptionally good during this season, and a feeling of hopefulness and anticipation is awaiting the report of the engineers who have been inspecting the Flin Flon property.

W. N. U. 1293

Farm Boys Made Record In War

Tillage Makes Good Soldiers and Helps the Commonwealth

It has long been known that the rural class furnishes some of the best material for armies. The British yeomanry were the bulwark of the Empire. Our own armies have always been largely composed of farmer boys. We pitted our country boys against the Kaiser's best in the recent war, and it isn't recorded that the professional soldiers of Europe won any honors to boast of. In one of his papers written over a century ago, John Adams quotes the following paragraph from Harrington, one of the political writers of the day:

"Tillage, bringing up a good soldiery, brings up a good commonwealth; for, when the owner of the plow comes to have the sword, too, he will use it in defence of his own. When it has happened that the people of England, in proportion to their property, have always been free and the genius of this nation has ever had some resemblance with that of ancient Italy, which was wholly addicted to commonwealths, and when Rome came to make the greatest account of her rustic tribes, and to call her consuls from the plow. For in the way of parliaments, which was the government of this realm, men of country lives have been entrusted with the greatest affairs."

Husbandry or the country way of life, though of a grosser spinning, is the best stuff of a commonwealth, according to Aristotle, such a one being the most obstinate assertress of her liberty and least subject to innovation or turbulence."

Self-Contained

Unless a man is capable of inventing excuses he should remain in the bachelor class.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. Stops Irritation; Soothes and Heals. You can get restful sleep after the first application. Price 60c.

Vegetables in Winter

Use of Vegetables at This Season Ensures Good Health

The family that has exercised forethought in the growing of vegetables for winter storage is not only ahead in dollars and cents but to a very considerable degree ensures the well-being of the family. By a little special effort many who have not been in a position to grow a garden may secure for themselves these same advantages.

It is not likely that the family will introduce vegetables into the diet to a desirable extent during the winter months unless those products are readily accessible and at a nominal first cost, largely for the reason that it is not generally recognized that this type of food plays a particular part in the diet, a part not supplied by cereals, fats, meats and sweets. While all vegetables are valuable for their supply of mineral salts, of those easily obtainable for storage, cabbage and carrots take the lead. For certain health-protecting properties now spoken of as "vitamines," cabbage takes precedence. All are valuable and better than medicine for their laxative properties if used in abundance. And of this one can be assured that there is no danger of excessive use.

Specific directions regarding satisfactory methods of winter storage are easily obtainable.

Alberta Farmers' Stock for Chicago

Farmers from the Chauvin district chartered a special train, loaded their own stock, and took it through to Chicago. Seven of the cars were loaded at Ribstone, and others at Arltland and Chauvin. This is the first farmers' own shipment of such magnitude from Alberta. It is expected that 100 cars of cattle from this district will be placed on the market this fall.

ATLANTIC FLIGHT!

Wonderful example of the value of OXO.

Captain Sir J. ALCOCK writes:—"You will be interested to learn that OXO was a great help to us during our Trans-Atlantic Flight; it sustained us wonderfully during our 16 hours journey. We had found out what a good thing it is when flying in France, and so decided to carry it with us on this occasion, and we can assure you that hot OXO is most acceptable under such cold and arduous conditions. OXO was the only article of its kind which we carried."

J. ALCOCK, Capt., D.S.C.

CUBES

Saskatchewan Phones

Over 7,000 Miles Have Been Constructed Since May 1

That Saskatchewan leads the world in new telephone construction is the statement of D. C. McNab, deputy Minister of Telephones of the Provincial Government. He says that since May 1 of this year 7,000 pole miles of rural telephone construction have been completed or are under way as compared with a mileage of 4,948 for the entire fiscal year ending April 1, 1919.

Five recent sales in the Portage La Prairie district of farm lands were transacted at \$100 per acre. Lands at Dauphin, Glenboro, and the Red River Valley have also been sold recently at this figure.

Another Epidemic OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other, not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after-effects, such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify the system against this terrible plague.

If you had the "Flu" before and it left you with any bad after effect, Milburn's Heart and Nerve Pills will bring you back to health and strength.

Mrs. C. C. Palmer, Keppel, Sask., writes: "I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Work of British Praised

Sherwood Eddy, secretary for Asia for the Y.M.C.A., speaking in Chicago recently on his return from Asia and the Near East, said of the unrest in Egypt that they had there the catchwords of democracy but that they had had more good government and good water supply under the British and General Allenby in the last 12 months than in the last 12 centuries. He commended the British for giving liberty and religious toleration and expressed surprise that other nations had not learned that Britain did this.

Shortly after getting the political bee in his bonnet the average man gets it in the neck.

Freedom from Asthma.

Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Farming in China

The system is old, but it comes to western minds as something new and surprising in a study of agricultural conditions in China that the small farmer who rents his land is always in a pleasant frame of mind toward his landlord, for in a good year of crops the landlord shares the farmer's prosperity and in a bad year he shares the farmer's loss. One has heard a good deal about the countless small farms of China, which tend naturally to grow smaller and smaller as generation after generation the share of his father's farm inherited by a farmer is divided among his own sons until the time comes when some of the sons must quit agriculture or hire land for farming. It is this process that has created the body of farmers who rent their farms, and the system of rental came with it. Payment of rent is always invariably made by the Chinese farmer not in money but in farm produce; the farmer and the landlord divide the crops, season after season. When the rice is cut and thrashed, the landlord very likely looks on; the rice is weighed and one-half handed over to him. When sweet potatoes are planted, one row belongs to the farmer and the next to the landlord, and when the tare is harvested the fact that here the farmer's expense in cultivation has been greater than in raising other crops is taken into consideration and he gets three roots out of four. So the system of equitable division goes through the staple crops, and as a result there is little or no shifting of farmers from one part of the country to another.

Our Three Million Dead

World's Mortality in the Great War Is Reported

The supplementary report of M. Louis Marin to the Budget Committee of the Chamber of Deputies states that at the time of the armistice on November 11, 1918, the following were the losses of the allied countries in killed and missing:

Belgium	44,000
United States	114,000
Great Britain	869,000
Greece	12,000
Italy	494,000
Rumania	400,000
Serbia	369,000
France	1,393,515

Total 3,695,515

These losses amount to one man out of 27 inhabitants in the case of France; one out of 32 in the case of Serbia; one out of 57 in the case of the United Kingdom; one out of 78 in the case of Italy; one out of 150 in that of Belgium; and one man out of 1,000 inhabitants in the case of the United States.

Minard's Liniment Cures Colds, &c.

Many Immigrants Rejected

Act Which Is Designed to Keep Out Objectionable Alien Element

The care which is being exercised by the Canadian Government in the admission of settlers into the Dominion is evidenced by certain figures recently issued by the Department of Immigration and Colonization. The figures also prove, it is claimed, the value of the amendments to the Immigration Act, which is designed to keep out the objectionable alien element from the country. From April 1 to September 30, 12,500 people wishing to enter either from points along the international boundary or at ocean ports were rejected, while the number of deportations during the same period was 215. The average of rejections can be estimated when it is stated that 68,934 people were admitted.

Some people are so miserly one can't ever have a joke at their expense.

The most obstinate corns and warts fail to resist Holloway's Corn Cure. Try it.

Pulp Mill for Port Arthur

The Great Lakes Pulp & Paper Company have completed arrangements for the erection of a pulp and paper mill at Port Arthur, and have signed contract for the use of a minimum of 12,000 horse-power to be supplied from the Nipigon plant.

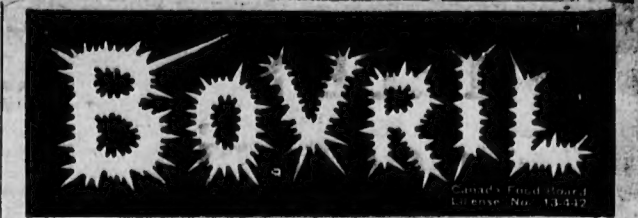

A faint heart is more apt to win the fair lady than a faint bank account.

Minard's Liniment Cures Diphtheria.

Land for Soldier Settlement

After drainage, which the Dominion government intend to undertake, it is expected that 500 farms will be available for soldier settlement in the Brokenhead district, 40 miles south and east of Winnipeg. The land is adapted to mixed farming.

A woman never pays much attention to what her husband says unless he is talking in his sleep.

Every Home Should Have First Aid Chest

Especially True on Farms, Where It Is Difficult to Get Doctor Quickly

Every home, especially where there are children, should have a definite place to keep first-aid remedies. In farm homes where it is often very difficult to secure the services of a physician promptly, the quick use of first aid remedies is important.

Miss Miriam M. Haynes, of the Colorado Agricultural College has the following valuable suggestion along this line:

"A first-aid chest made from an old spool box or from lumber about the place, or a high strong shelf is very good. One should be sure that there is a good light on the chest or shelf so there will be no mistake in taking the wrong bottle. Label each article carefully. Give special markings on bottles containing poisons.

"Keep all bottles, bandages and instruments on first-aid shelf in order so that they may be found instantly."

OH! EACH DAY A LITTLE MORE

Hurry! Let "Danderine" save your hair and double its beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair grow long, thick and strong and become soft, glossy and abundant.

A Busy Logging

Season in B. C.

The mill of the Fernie Lumber Co. has been sold to a Spokane firm, O'Neill & Irvine, who are putting the plant in first-class shape and intend cutting heavily in the spring. The timber outlook is very favorable all over the district. Men and horses are being secured in large numbers, and the logging this winter will be very heavy.

Silver Lead Mine to Be Opened

Hope, on the Kettle Valley line, is making a bid for development. Its railway, lumbering and mining activities are producing a payroll of \$20,000. The Eureka silver lead mine, one of the earliest discovered mines, is to be operated. A considerable amount of work has been carried out during the year.

\$100 Reward, \$100

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. \$100.00 for any case of Catarrh that HALL'S CATARRH MEDICINE fails to cure. Druggists 75c. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

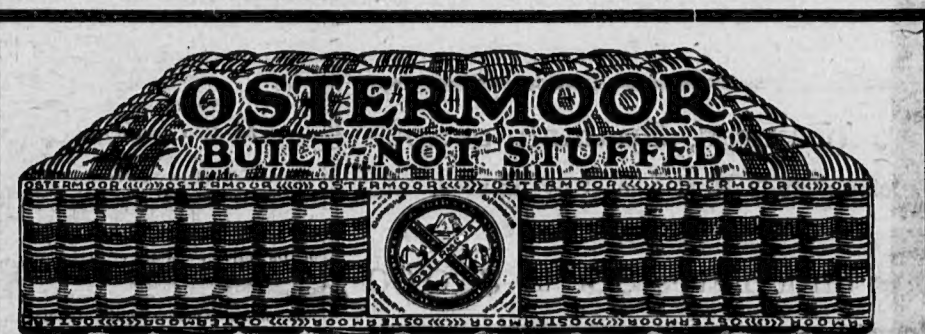

Shah of Persia Surprised London

When his Imperial Majesty the Shah of Persia arrived in London from Dover after crossing the Channel on the royal yacht Alexandra he sprang a surprise on his English hosts.

Photographs from Paris of a plump young man in subdued western clothes had scarcely prepared London for the vision which awaited it. The Shah had discarded tailormades and bowlers and wore a black astrachan cap with a white aigrette. In the centre, fixed with a magnificent brooch with a huge diamond in a circle of white pearls. His uniform was of dark blue serge with bright red facings and gold buttons and epaulettes. He also wore spurs and white cotton gloves.

PILES

Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as a certain cure. Price 50c a box. Dealers, or Edmanston, Bates & Co., Limited, Toronto. Sample bottle free. Write for this paper and enclose 2c. stamp to pay postage.

LOCAL AND GENERAL

Three weeks to Xmas.

Get your Xmas ads. ready now.

A movement is being made to organize a girls hockey match.

Don't fail to hear the new Grafonolas at the Jewelry Store.

The Cluny Busy Store is sustaining its reputation. Read the ad. in this issue.

Brown's Transfer is telling you all about the coal situation in their advertisement.

A special meeting of the Board of Trade will be held Monday, Dec. 15th, in the Masonic Hall.

The regular meeting is held every Monday at 8 o'clock sharp. All returned men welcome.

N. P. Purcell is already receiving Santa Claus' presents for the Gleichen kiddies. Read his ad.

The Indians are now hauling some coal to town. Thanks to the Board of Trade coal committee.

From now on moving pictures will be shown at the Opera House every Wednesday and Saturday nights.

Wm. McConnell desires to thank most sincerely all who voted for him in the town elections Monday and to assure them their confidence in him is greatly appreciated by him.

Pte. J. W. Egles returned from overseas last Thursday after an absence of four years. He is looking rather thin, but hopes soon to be his former self. His many friends are giving him a hearty welcome home.

The Gleichen Women's Institute extend a vote of thanks to all those who so generously donated and helped with the supper served at the G.W.V.A. dance on Nov. 11 and the Citizen Band dance on Nov. 21. The ladies are pleased that they were able to forward the Veterans and the Band two cheques of \$50 each to aid these worthy causes.

See the new Columbia Grafonolas at the Jewelry Store.

The Overland 4 is now the coming car for prairie roads. Bates & Gibson are the local agents and make a specialty of repairing all autos. See page 7.

The Call agrees to do all of your printing as cheap as you can get it anywhere in Canada.

First Friday in each month—the Town Council meets.

First Thursday in each month Gleichen District Agricultural Association meets.

Travers People Grateful

Travers, Dec. 5, 1919
To Mrs. Henderson and the Gleichen ladies who helped.

Your generous boxes were duly received and we wish you to convey our heartfelt thanks to all those who contributed.

If you could see the looks and hear the words of gratitude from those who received help you would feel repaid for the care which you took in gathering and packing such an abundant supply for the needy.

President Mrs. G. A. Holden
Mrs. A. S. Buckan
Mrs. C. J. Bray.

To the Editor:—

Now that the Victory Loan campaign has closed with such a magnificent subscription—over 100 per cent more than the government asked for from the people of Canada—Mr. Wilkinson and I wish, on behalf of the Dominion Press News and Feature Committee, to express our appreciation of the generous support given by all weekly newspapers in Canada to the Victory Loan 1919. Backed by a nation-wide advertising campaign, editorial and news articles in all the newspapers of Canada, there never was any doubt but that the campaign would be a success.

To the weekly newspapers of Canada in no small measure must be given credit for the success of the loan.

Let us again thank you for the assistance you have given and remind you once again that the success of the loan, primarily was due to the advertising and publicity campaign carried on through the columns of the newspapers of Canada.

Yours very truly,
W. J. Taylor, Chairman,
Canadian Press Association.
